

THE HEAVENLY GIFTS

As I sit here tonight, lost in thought, prayer, and song, God has touched my heart and enlightened my mind, answering deep questions that gave me great pause pondering in last night's sleep and the light of today.

The Locutions (<http://www.locutions.org>) have opened my eyes so much as I ponder the beauty of Our Lady's words. Last night, my mind was struck by this passage from March 23, 2012:

"When I was conceived without sin, the Father placed within me a fullness of divine life, greater than any other human person had ever received. Even the great saints, like Peter and Paul, after all their years of knowing and loving Jesus, did not have at the end of their life even a fraction of the divine life which I had from the first moment of conception. Even while in the womb of my mother, this life multiplied itself into a greater fullness. While still in the womb, I became aware of the Father, Son and Spirit with a mystical and experiential knowledge far greater than the highest Seraphim. I loved God, even before my birth, more than all the angels and all the saints combined."

And upon reading this, I asked in my heart to God, *"who am I? Who am I that God would desire to create me from all eternity, when I am so lowly and nothing, not even a speck in comparison to the greatness of the Blessed Mother? Why would God desire me when surely nothing is impossible to God that He could create creatures equal to the greatness and holiness of Our Lady?"*

These thoughts threw me into a state of perplexion, as I surely thought to myself, I have nothing to offer to the Great Glorious God and His Holy Majesty.

So then, Our Lord took pity on my lowliness and reminded me, in my feeble mind which was a bundle of distressed thoughts as tears fell down my face, that God gave me everything that I am and that all He desired was that I give everything that I am back to Him as a gift.

He desired my love, my faith, my trust... But, most of all, my free will, a precious, mysterious gift that I will never truly understand on this side of Heaven.

And having this answer, it satisfied me somewhat to allow me to sleep. To know that God could be satisfied with so little I had to offer, because He gave me that little portion to my being and simply wanted it back. A little portion that totally belonged to Him anyways, as part of my lowliness, being a creation of His Divine Hand.

But, I still continued to ponder in a hidden way the burning question... Why create me? An inferior, weak human being, when God could create others to be equal to His Divine Majesty and that of the Blessed Mother?

I pondered it in my sleep. I pondered it in my waking hours. And I continued to ponder it this night until God provided the answer, by pouring a bit of understanding into my puny mind...

I remembered the teachings of St. Therese Lisieux, The Little Flower, and St. Louis de Montfort on the heavenly garden of God and His Mystical Rose. I recalled prior writings where I wrote that every soul is like a beautiful flower uniquely created in the garden of God's Love.

And I also reflected upon a heavenly message from Our Lord at Holy Love Ministry (<http://www.holylove.org>). In the message, Jesus revealed that He presents the souls who have reached the highest pinnacle of holiness as sweet flowers of consolation at the foot of Our Lady in Heaven, as many slip to perdition.

And so, I began to think about these deep thoughts imparted to me, about the heavenly garden of God and how every soul is like a "gift" to Our Blessed Mother, when suddenly, the darkness parted to the fullness of light in my mind's small intellect.

And it has become a great joy to me now, knowing that I finally understand fully one of the reasons why I was created. Why me, a lowly speck of nothing, in comparison to the Great Glory of Our Lord and Our Beautiful Queen, was created by the Divine Hand of God.

Yes, "all things are possible" to God.

Yes, God could create a family of beings equal in superiority and greatness and glory to Our Beloved Mother. A super family that I thought to myself would be worthy of the Majesty of The Holy Triune God.

However, that would not serve God's purposes. The answer all lies in these passages of a locution given by the Blessed Mother on March 25, 2012, as She speaks of the Annunciation:

"At that moment I experienced the freedom of my will. I experienced God as the great respecter of the human persons whom he creates. I realized that God waited upon me. He knocked but he did not open. He invited but he did not compel. He who is almighty would not act. He would wait. It was as if all the centuries were contained in that single moment, as if all of history, from Adam and Eve to Jesus' Final Coming, was suspended, held in midair. In my own heart, it was like years, all the years and all the moments that I had experienced God's delights. Now, I realized God was my suitor. He wanted my hand in marriage and my womb to bring forth his Son.

How could I refuse him? How could any creature say "No"? My whole being poured forth into God. I was united to God as I had never been before. The divine fire overshadowed me. "Let it be done" I said. I repeated this over and over again, as if once was not worthy enough of his Being.

Then, silence overwhelmed my soul, the deepest of all silences. I was still, and totally attentive. How else could I be? The Word was becoming flesh. In a moment, in the twinkling of an eye, the overshadowing took place. With that, Gabriel departed and I was left with my thoughts and with the eternal, living Word in my womb."

And upon looking closer at this locution, I realized the True Greatness of Our Lady. Her suitor was God, Whom desired Her hand in marriage and Her Immaculate Womb for His Divine Son.

Our Lady is The Queen of Heaven. She is the Glory of God. She is the Most Beloved First Daughter of God The Father, The Ever-Holy Mother of God The Son, and The Most Cherished Spouse Of God The Holy Spirit.

I wish I could write those words over and over again to stress how awesome are those facts. Such is the limitations of words...

For I realized that to create beings equal to the Blessed Mother would serve no purpose, because there can be only one Queen of Heaven. It is a singular, unique grace particular to Our Lady alone.

Yes, we, as part of the human family and being created in the image and likeness of God, are called to imitate the inner beauty and holiness of the Three Divine Persons and Our Lady. But, there can only be one Queen worthy to bring forth the One Divine Son in Her Immaculate Womb. There is only One True God, Born of the Flesh.

And in the realization of this divine mystery, I finally realized one of the eternal reasons for who I am and why I exist.

I realized an important reason as to why I was created. I exist to be an eternal gift of love from God to Our Lady.

And Our Lady is a Great Gift of God to us as we become children of Our Blessed Mother at the Cross.

Let me explain...

Yes, it is true. God did not need to create humanity and the angels. God did not need to create Creation at all.

God could have simply created the Blessed Mother and stopped at that single ultimate glorious masterpiece of His Divine Hand. Our Lady Is Perfect in every way and Our Lord did not need to create anything else to bring about the Desires of His Most Divine Heart—a Daughter, a Mother, and a Spouse.

But, God did not stop with the Desire of His Most Sacred Heart for Our Lady. Our Lord, having Our Lady ever-foremost in His Divine Mind, desired to create all of Creation as a Great Gift of Love to romance the Woman of His Most Divine Heart.

And the human family would be the pinnacle of Creation, each person made in the image and likeness of God, but also, in the image and likeness of Our Lady, with the angels, as helpers to man.

Humanity and the angels would be the treasured gifts of eternal love from God to Our Lady. Above all natural Creation, our souls would be the ones only truly worthy of presenting as acceptable gifts to Our Queen from His Most Sacred Heart.

I once wrote, *“Let me be a flower—a rose at the Blessed Mother’s feet—that opens in full bloom and full fragrance to the rays of Your Love.”*

Every human soul is a heavenly flower, a mystical rose, in God’s Garden. Every human soul is an ever-beautiful, ever-blooming bouquet of love that Our Lord, the Eternal Bridegroom, presents to His Heavenly Bride.

Every human being and every angel reflects some aspect of beauty and holiness that exists chiefly and firstly in the person of Our Lady. Each of us magnifies a special, unique quality and beauty of Our Lady, and through our continual love of God and neighbor as ourselves, we put on display a special character and attribute of Divine Love that is expressed firstly between Our Lady and Our Lord for each other.

I was created to be a gift of love. An eternal gift of holy love given by Our Lord to Our Lady.

An eternal gift, imitating an aspect of the exchange of Love between Our Lord and Our Lady, through my very state of being.

I am a gift.

Each of us in heaven enjoys a unique intimate relationship with Our Lady. Second only to God Himself, each of us is ever-closest and ever-present to Our Lady in a fullness more profound and in a deeper way that is set apart from the unity that all holy angels and saints have in the Communion of The Saints through The Body of Christ.

In order to comprehend this profound and deeply intimate relationship we have especially with Our Lady, one must understand the Divine Truth that the Most Sacred Heart of Our Lord Jesus Christ and the Immaculate Heart of Our Lady are so United as to be essentially One in God. They are identical Twin Hearts never separate or apart from one another. Wherever Our Lord Is, so Is Our Lady. They never walk apart or alone. Our Lady is Our Mediatrix of All Grace and Our Advocate of All Causes.

In a Locution, on May 12, 2014, Our Lady reveals:

“In his secret plan, the heavenly Father has placed this love in my Immaculate Heart. He has told me, “Mary, go to the world. You will be more than just my messenger. Your heart will carry my love. I have so united your heart with Jesus’ heart, that the two hearts are as one. You are so united that it would be more difficult to separate your hearts than to separate the sun from its rays.”

And so, because of the unique Unity between the Twin Hearts of Divine and Holy Love, each of us has a uniquely profound communion with Our Lady. She is ever-present to us, just as Her Son, Jesus, Is to us in heaven.

Also, I have learned in my ponderings, that it is through our familiar and intimate relationship with Our Lady, that our loving relationship with God The Holy Spirit is made more immediate and accessible to us.

In a Locution, on May 10, 2013, Our Lord Jesus spoke of the Age of Mary and the Age of The Holy Spirit. He said:

"I want to speak of the Holy Spirit, sent by the Father, in my name. He now lives and dwells with mankind. Although hidden from human eyes, he manifests himself constantly to those who know him and invite him to act. He manifests himself sometimes among those who know him but have little devotion to him. He hides himself from everyone who rejects me."

"All of that will change because the Age of Mary is really the Age of the Holy Spirit. The two are so closely joined, that one cannot be present without the other. This is the mystery being revealed now. The Spirit has chosen to take up his permanent residence within Mary. She is the Spirit's spouse, where he always stays. From her Immaculate Heart he pours out his divine fire."

And in the same locution, Our Lady spoke:

"When my spouse, the Holy Spirit, came upon me to conceive Jesus, he grasped me and held me. He took me as his bride, like the proudest bridegroom on his wedding day. Since then, we have never separated. He has made his temple in my heart. From there, he has sanctified the Church and the world. Now, the mystery has to be revealed because the world so needs his divine fire. Where will you find God's Spirit, O world? He waits for you in my heart. He goes out to you from my heart and he will renew the whole world in my heart. This is the secret of the Age of Mary. You have found his traces, his works, his manifestations but you have not encountered his essence, his internal fire, because you have not sought him in the secret dwelling place of my Immaculate Heart."

Also, in a Locution, on June 26, 2012, Our Lady speaks further about the Holy Tabernacle of God The Holy Spirit:

"...So, I announce to the world a new era of the Holy Spirit which will be inaugurated through my Immaculate Heart."

"When I speak of my Immaculate Heart, I am really speaking of the Holy Spirit who dwells there, as a host in a tabernacle. Is not the host be adored? And where is the host? In the tabernacle. No one adores the tabernacle, even though it is beautiful and artistically formed."

"...At times, the host goes forth to sanctify the people in the mystery of Holy Communion. So, the Spirit goes forth to pour out all his gifts, but then he returns to my heart to take up his continual abiding. All can know the secret. If you want to worship and adore the Holy Spirit, come to my Immaculate Heart."

And so, as Jesus has revealed, God The Holy Spirit has His permanent residence in the Immaculate Heart of Our Lady. He exists there in an overabundant fullness that is unlike His presence in all other creatures. To honor the Immaculate Heart of Our Lady, is in reality to adore and praise The Holy Spirit Who abides there completely and fully. And to understand the richness and greatness of His Divine Person, it is necessary to understand the profound and intimate relationship The Holy Spirit has and shares with Our Lady, Who Is His Chosen Spouse. It is in studying the divine and holy intimacy

between The Holy Spirit and Our Lady, that we grow in our understandings of the inner mysteries and workings of The Most Holy Trinity.

This is why The Age of Mary will be also known as The Age of The Holy Spirit. They are One, as in marriage, One Flesh, One Spirit in Divine Intimacy. To understand Mary is to understand The Holy Spirit. *All Glory to God!*

Thus, as St. Louis de Montfort writes in his book, "The Secret of Mary," to find the grace of God, we must discover Our Lady. He writes:

"There is not and there will never be, either in God's creation or in his mind, a creature in whom he is so honoured as in the most Blessed Virgin Mary, not excepting even the saints, the cherubim or the highest seraphim in heaven. Mary is God's garden of Paradise, his own unspeakable world, into which his Son entered to do wonderful things, to tend it and to take his delight in it. He created a world for the wayfarer, that is, the one we are living in. He created a second world - Paradise - for the Blessed. He created a third for himself, which he named Mary. She is a world unknown to most mortals here on earth. Even the angels and saints in heaven find her incomprehensible, and are lost in admiration of a God who is so exalted and so far above them, so distant from them, and so enclosed in Mary, his chosen world, that they exclaim: "Holy, holy, holy" unceasingly."

God's chosen inner world—Our Lady—as otherwise known as *The Immaculata*, is a world unknown to us on earth. But, in the age to come, God will reveal more of this ever-holy, ever-beautiful, ever-exquisite world to us as we become ever-closer to knowing Our Lord, The Holy Spirit.

In the Locutions, Our Lady has also shared, on May 11, 2013, this:

"Many will scoff and ask, "How can this be?" How can the heart of a creature contain the Holy Spirit and all of his divine fire? I do not say that I contain him. I only claim that he dwells within my heart in a fullness. By fullness, I mean that he does not dwell there merely for me (as he dwells in the hearts of all who love Jesus) but he dwells in an overflowing abundance, which pours out and transmits the divine fire. This is the Father's plan that brought forth Jesus in my womb and brings forth all the other children of God. Whoever comes to me will be touched by the Holy Spirit who has chosen to take up residence in my Immaculate Heart. The heart of Jesus contains the fullness of the Spirit. I have received of that fullness for myself and all my children."

Also, on May 16, 2013, Our Lady shared:

"This is my fire, the fire I received from the first moment of my Immaculate Conception, the purest divine fire that has ever been given to any creature. This is the fire that I want to pour out upon my children. I know its powers because I have experienced all of them. I know that this fire will continue, if only the person accepts its presence."

"My children, learn of my fire. Learn of the fire that dwells deep in my heart, the richest and purest of fires that can remake the face of the earth. What more can be said?"

In the Immaculate Heart of Our Lady dwells the fullness of Divine Infinite Love. The Blessed Mother has shared in heavenly messages that our human hearts are created to hold the Infinite Love of God. And so, when mankind seeks the finite, empty goods of the earth, it creates a deep gnawing and profound emptiness and void in the human heart, which was always meant to hold the richness of God's Love. Nothing can replace the Infinite Love of God that is meant to reside in the human heart and soul.

Our Lady has said that She knows all the powers of The Holy Spirit, because She has experienced them all. *How profound this statement is!* As it is a great mystery how Infinite Love can reside in the finite human heart and soul. It is a mystery that cannot be understood on this side of eternity.

And yet, we are invited by God to share in the participation of His Divine Life by having a portion of His Infinite Love dwell in our hearts and souls. A complete fullness that Our Lady experiences and has been given the authority to impart to us as Our Mediatrix of Grace.

We are called to live in Infinite Love. And in the age to come, we will have an eternity to explore, learn and grow in this Love, as we become closer to God through the Immaculate Heart of Our Lady.

And so, I started this writing by sharing that we are eternal gifts of love from Our Lord to Our Lady.

The Blessed Mother was given to us as a great gift from the Most Sacred Heart of Our Lord at The Cross. In turn, each of us was given to the Blessed Mother as a gift of being Her own children and children of God at The Cross. A mutual exchange of gifts of holy love.

But, this exchange of gifts of holy love was not simply a one-time event. No, rather, we have a special calling to manifest our holy love of God and Our Lady for all eternity. In imitation of how God and Our Lady loves individually each of us. The gift of holy love is forever life-giving and forever fruitful in the Light of God.

And so, each of us is an ever-special beautiful rose for Our Lady. As each of us grow in holiness, virtues, and love, we showcase a special attribute of the Infinite Love in God, blooming ever-so lovelier in the eyes of Our Lady. In our own unique way, we are a special delight to Our Lady, which She will forever cherish, joined to us in a special, intimate way for all eternity.

We will love Her, and She will love us, as we enjoy and praise God and all of His Mysteries held in Creation forever.

I have learned through the Holy Love messages that in the age to come, that not only will the heavenly messages of Holy and Divine Love be accepted and understood by humanity, but that all of mankind will be learning further about the inner workings of the Most Holy Trinity.

We will spend eternity learning and growing in Infinite Love, which has been supported by the lessons imparted in The Locutions. The spiritual journey through The Most Sacred Chambers of The United Hearts of The Most Holy Trinity and The Immaculate Heart of Our Lady, as provided for at Holy Love

Ministry, will be embarked by every good soul—as each soul matures in their spirituality and in their love of God.

In concluding thoughts, on June 23, 2011, Jesus gave this beautiful message about the “rose” of the soul at Holy Love Ministry:

"Today I am here to help you to see that every soul's spirituality can be compared to the rose. The rose in full bloom pours forth a beautiful fragrance for all to enjoy. The rose in full bloom, however, is the culmination of much effort, both from Heaven and from earth. The plant must be fed and fertilized. The soul must be fed with the good news of the gospel - mainly Holy Love - and then watered by God's grace. Many thorns may grow along with the rose. In the spiritual journey, these would be the temptations against living in Holy Love."

"The fragrance of the rose - the beauty of the soul - is best experienced at the center of the bud. So, in the soul, the depth of holiness is in the center of the heart which must be Holy Love. As the rose opens, the petals around it unfold and add to the richness of its beauty."

"In the soul, the fruits of the Holy Spirit unfold all around Holy Love and add to the richness and beauty of personal holiness. The petal closest to the bud, which opens first, is the first sign that the rose will open and bloom to its fullest. In the soul, this first petal is Holy Humility."

Finally, the meaning of Creation, of all the angels and the human family makes sense.

Finally, the meaning of my own creation makes sense and comes to rich fullness and divine life.

I have a sublime eternal purpose. I am special, I am unique, I am irreplaceable, and I am infinitely loved.

Everyone should know these words...

"Let me be Your rose"

st. therese of lisieux, known for her "little way" to heaven, once said that she wanted to shower the earth with roses. the rose, her calling card, usually accompany a miracle that is granted through her intercession.

but, little did i realize when i began my own path to heaven, that we are the roses that this great saint once spoke of. because more beautiful than any earthly rose, is the exquisite rose of our spiritual hearts, our own souls that glisten in the misty dew of dawn, embraced by the shimmering rays of the morning star.

Our Lady is called the "Mystical Rose." it is because She is the crowning jewel in God the Father's heavenly garden. a loveliness in purity and perfection that is beyond our fullness of understanding on this side of heaven--the Eternal Father's supreme delight.

and yet, each of us are a uniquely special creation and joyful delight to God's Paternal Heart. we are His children. we are loved.

the Immaculate Heart of Mary is typically depicted being embraced by a crown of white roses. could this be because we are called also to embrace this dear Mother as Her own children, born anew in precious purity and radiant holiness, in imitation of the great Mystical Rose, Our Queen in heaven?

the Blessed Mother brings us to Her Son. through Her freely given 'yes' is our salvation born in Her Son. but Her 'yes' cannot be limited solely to that particular moment in time, no, rather, She said 'yes' every continual moment of Her life.

She gave and loved beyond any other created being ever has or ever will. for, in Her continual 'yes,' to God, She loved every human being that ever lived. devoid of any self-interest, She saw with true wisdom the entire family of God in Her Heart, loving completely those who had brought Her to life in Her time, and then She carried that love for humanity into the future, loving every generation who would walk the face of the earth.

the Mystical Rose, Our Queen in Heaven, Our Dearest Mother. oh, how i long to embrace this most tender of mothers, both in gratitude and love for the precious gift of salvation She gave me through fulfilling, in the most perfect way, all the desires of God the Father's Divine Heart for humanity.

and yet, i know that i can embrace Her before my appointed time, by welcoming Her presence always in my own heart.

i can give to Her all that i am today, to be recreated and molded into Her total image of Love. in doing so, i join my own little heart to Her Immaculate Heart which forever beats in time with the Most Sacred Heart of Her Son.

a spiritual trinity of Hearts then, held together by the Eternal Flame of Love, the Holy Spirit, plunged deeply in the Divine Heart of the Beloved Father.

as one walks the pathway of love, one realizes the so very precious jewel that heaven offers and beckons to each of us in Holy Love. a love that is called to be 'set apart' for God's own intentions, a Holy Love that is found in and through the Immaculate Heart of Mary, which points the way always to Her Son.

as we willingly step into this Holy Love, the Sacred Chambers then open up more freely to us, laying bare and wooing us constantly, desiring at all times, to compel us forward into a deeper, more penetrating, more perfect love, that reveals at its heart, a complete and total surrender to the Most Divine Will of the Father.

the Chambers of the Most Sacred Heart. standing at the antechamber of Holy Love, oh, how i long to progress further and be perfected through such a beautiful mystery that can only be recognized as the unity and fullness of Truth--a mystery and a revelation so sublime that it resonates and speaks to the very core of my being, my soul.

let me be Your rose, sweet, dearest Mother. let me be that seed that waits in stillness of winter, dying to itself in springtime, in order to be transformed and reborn as a beautiful budding rose, that awakens in the fullness of the Light.

let me face the heavens, as the Father smiles down on me in pure delight. let the rays of His Son melt upon me as the breeze of the Spirit lifts me up, glistening in the dew of a Mother's sweet tears. let me be perfected in a love that has no bounds.

i desire this. i want this. i need this.

let my every breath, my every movement, my every heartbeat, my very being belong to the United Hearts of the Most Holy Trinity and the Immaculate Heart of Mary.

Jesus, i trust in You!

may i always love You!

The Holy Spirit and the Spirit of Mankind

Jesus

"I must speak about the spirit of mankind that has so boasted of its powers and has so exalted human reasoning. Look at all of your inventions and technology. Where has it led you? To the brink, to the precipice of unknown horrors. Already, these are spilling out everywhere. This is where the spirit of mankind has taken the human race."

"You have taken human destiny into your own hands. You have stolen it from my grasp. You have made the decisions and have taken the roads that have led to all of this."

Mary

"I will teach you about the Holy Spirit of Jesus. He is kind and gentle. He leads people into truth and light. He spreads a spirit of forgiveness and pardon. He teaches people to hold no grudges, to forgive enemies, to reconcile and to work together."

"He makes all men one. In Jesus' Spirit, there are no class differences – rich or poor, male or female. He alone can bring about the oneness needed for world peace. He is my spouse and I will introduce him to the whole world. World peace springs only from the Spirit of Jesus."

Divine Love (The Holy Spirit)

Jesus

"All creation came into existence from the divine love in the heavenly Father's heart. Creation was meant to remain in the warmth and light of that love so that life could come forth. Instead, mankind has taken creation away from the Father's love and brought human history into a time of cold and darkness to such a degree that human life is harsh, violent and seriously threatened."

"Mankind has decided to do this, to establish his own world independent of divine love. The results are seen everywhere."

Mary

"When will the time come when mankind returns to the divine love from which it came? I speak to reveal the great mystery of my own Immaculate Heart. Divine Love, the Holy Spirit, lives and dwells in my heart. He abides there and blesses all who enter. I must stir up the whole world. I, even now, go

forth to so many places, always revealing, in simple words, this great truth. Divine Love, the Holy Spirit, dwells in my heart. If mankind would just enter my heart, it would be bathed again in the warmth and light needed for new life. That is why I ask for Russia to be consecrated to my Immaculate Heart. At that moment, I will plunge the whole world into the Holy Spirit of divine love. Life will flourish and death will lose its power."

Age of the Holy Spirit

The Spirit Dwells in a Fullness

Jesus

"How many great and wonderful mysteries do I reveal with the simplest of words but my people must know that these revelations are to help and encourage them, as they discover the new riches that are opened to them in this destructive age."

"I have come to light a fire on this earth but mankind is constantly resisting my fire. Instead, he has built his own fires of violence and self-destruction. Only my fire can soften the human heart and bring

light into the greatest darkness. I will try again, always in a new way, to cast my fire upon the earth. That is the secret of my mother's Immaculate Heart. My Spirit has chosen to abide there in a fullness."

Mary

"Many will scoff and ask, 'How can this be?' How can the heart of a creature contain the Holy Spirit and all of his divine fire? I do not say that I contain him. I only claim that he dwells within my heart in a fullness. By fullness, I mean that he does not dwell there merely for me (as he dwells in the hearts of all who love Jesus) but he dwells in an overflowing abundance, which pours out and transmits the divine fire. I have received of that fullness for myself and all my children."

Mary, the Safe Road

Jesus

"The Father draws to himself those who believe in me. These are taken up in a power far beyond their own striving. Among those who believe in me, some have learned true devotion to my Mother Mary. These travel even faster and farther than the others because the secret has been revealed to them about this Age of Mary. They do not hold back their love for her nor ration their devotion. They are like babies drawn to their mother's breast. They drink freely of her milk and are satisfied. Other souls are fervent but they do not know this easy and safe way that is meant for everyone. This is what I have come to reveal. Let every heart be drawn to my mother. She will make sure that they never turn aside from the right road. She is the safe and sure path that any soul can walk."

Mary

"I speak clearly so the truth is fully revealed. Some forget about me. Some refuse to accept my role. They trust their own strength to serve Jesus and their own light to find him. They think they find him but often the one they find is not my true son for there are many false Christs. My children, do not trust yourselves but trust your Mother. I will not lead you astray. We will quickly gain the goal with little effort and less confusion. Whoever finds me, finds their way to Jesus."

May 14, 2013
The New Fire

Jesus

"I come to reveal the great secrets of the Age of Mary and the will of the heavenly Father to exalt her Immaculate Heart. The Age of Mary is not just a figure of speech but a profound reality of the

Kingdom of God, an unveiling of a new moment in the history of the Father with mankind. This moment has been deliberately delayed until this hour when mankind hurtles to self-destruction and only the Father's hand can rescue earth."

"The secret, the mystery, is that new divine fire will be cast upon the earth through her Immaculate Heart. This fire will be more powerful, more extensive and more easily accessible than any previous divine fire. All will be invited to receive, Catholics and others, because Satan's destructive powers will also extend to all. Nothing will be held back in the Father's attempt to rescue and save mankind."

Mary

"These mysteries are the deepest gifts planted in my heart by the Holy Spirit and reserved until this moment. The fire can be received by all, but the fire will only remain in those hearts that accept its purifying action. When that has been completed, the great graces will be released which I will explain later. It is enough to know that the heavenly Father is ready to pour out new fire which can save everyone."

May 15, 2013 Fires Everywhere

Jesus

"Fires burn everywhere. Fires of lust destroy families. Fires of violence destroy countries. Fires of greed destroy economies. Fires of ambition place the wrong people into high offices. Where will it end? The fires burn and burn and nothing turns them back. They consume what was once unthinkable. The most sacred of ground, marriage itself, is threatened. The most solid foundation, the American economy grows weaker and weaker because no one responds to these fires. They burn and burn. Can there not be a new fire? A cleansing fire that falls from heaven? A fire that weakens and overcomes these destructive fires. The fires of lust, violence, greed and ambition burn in the people's hearts. Cannot the heavenly fires purify their hearts? This is their purpose and why I will send them."

Mary

"These heavenly fires exist for every need of mankind. The fires vary in powers and purposes. There are fires for every heart, for every moment and for every situation. My Immaculate Heart contains all these fires so needed by modern man. I will freely and generously distribute to all who ask. I speak so plainly so each person seeks whatever fire they need. Remember. These are God's fires and they purify."

The Power of God's Fire

Jesus

"All is contained in this divine fire. Nothing is lacking. When the fire touches the human heart a new blaze begins. This new fire purifies. It removes everything that is selfish and forms the person into the image of the Father. New life, filled with rich hopes, make the person rejoice and say "I can be a child of God". Nothing is impossible when this fire burns brightly. Yet, much is still lacking. Upon receiving this fire, the person sees clearly that their love for God is limited and they serve him poorly. Yet, no sadness fills them, only a striving to reach the moment of full divine union. Such is the nature of this fire."

Mary

"This is my fire, the fire I received from the first moment of my Immaculate Conception, the purest divine fire that has ever been given to any creature. This is the fire that I want to pour out upon my children. I know its powers because I have experienced all of them. I know that this fire will continue, if only the person accepts its presence."

"My children, learn of my fire. Learn of the fire that dwells deep in my heart, the richest and purest of fires that can remake the face of the earth. What more can be said?"
