

**MY POODLE NEEDS A PET GROOMER –**  
**Please Remember To Bring Your Tools of the Trade To The Refuges**  
**(<https://maryrefugeofsouls.com>)**

By a soul  
(May 24, 2021, Monday of the Octave of Pentecost)

I know that it might people laugh – as a pet groomer seems like a luxury to most people – but when I, “a soul”, finally make it to the refuges, THE poodle is coming with me, and she has awful flea problems without a haircut once in awhile (especially, summertime!). So, honestly, folks, I would love to see a pet groomer with their tools of the trade at the refuges...

*(And yes, pets are welcome at the refuges – see my blog post link below to the commentary!).*

However, besides pet groomers, I would love to see other people bring their tools of their trades, skills, and hobbies, etc., to the refuges, too. In fact, Our Lord, Jesus Christ, has spoken in several earlier messages to **Prophet John Leary** (<http://johnleary.com>) about the need for people to bring manual tools and equipment for their trades to the refuges. I have included several of these heavenly messages at the end of this short commentary for people to further consider.

However, I am doing this writing because I want people to also think “outside the box” about things that they can bring to contribute to a better “rustic life” at the refuges. For example, I think a lot of people realize there will be a lot of sewing, knitting, crocheting, and weaving happening in the refuges. Well, even if you do not know how to sew or knit, I want everyone to realize that bringing extra fabric (denim material? Terry cloth?) and more colors of yarn to be multiplied by prayer would help the refuge owners out tremendously, because the need will be so great to clothe so many hundreds of people (typically at a single refuge). I just looked online and realized that clothing patterns are very expensive. Imagine needing clothing patterns for every size type for men, women, and children(!). There is a way to create sewing patterns from existing clothing, but that may not be possible at every refuge. But, if many people bought a couple of clothing patterns that fit for their size body, like for a pair of pants and a long-sleeve or short-sleeve shirt, those patterns could end up helping a lot of people at their refuge.

Also, I want people to know that “life will continue” during the time people are at the refuges. What do I mean by this? Well, I know a story of a refuge owner who was wondering about all the boxes that she had in her attic of supplies for house weddings that had taken place at her farm through the years. And the Lord made it known to her, through a chosen messenger, that YES, weddings will take place during the time that

people are living at the refuges. Moreover, babies will continue to be born during life at the refuges. So, one, I hope people remember to bring some nice white silk satin and lace fabric, and two, I hope the midwives and doctors know that they will still be needed despite the many healings taking place at the refuges, etc. All their skills will be put to use.

Also, the educational needs for the children will still exist at the refuges. Besides the need for children's Bibles, if you have any Christian story books, homeschooling curricula, Christian textbooks, etc., and have the space to bring them with you, I want to encourage you to consider it. Even if the books are really old in your attic – I will tell you – they are probably way better than the smut being peddled in the public schools these days and will be welcomed by the parents and children at the refuges. Even if you only have space for one or two children's books, if everyone brings one book, that would make a huge difference in the life of the children living at the refuges (I remember when I was a child that I could not read enough books as I begged my dad to take me to the library every week). Also, simply bringing extra blank notebooks and extra pens / pencils / crayons to be multiplied by prayer for all the children would make a huge difference, too (I used to go through reams of paper just coloring and drawing pictures as a child). **(Note:** all Disney, Harry Potter, and a lot of sci-fi and fantasy-related books, games, etc., are not appropriate for life at the refuges. Unfortunately, a lot of parents will realize the masonic and demonic origin for these items during the Warning. Please see **Page 4 for a list of occult items** that have actually been the source of exorcisms performed in Holy Mother Church:

[https://greenscapular.org/web\\_folder/Adobe/Newsletters/Newsletter\\_Vol\\_7.pdf](https://greenscapular.org/web_folder/Adobe/Newsletters/Newsletter_Vol_7.pdf) ).

Finally, as you consider what life might actually be like during the time of the refuges, I want to encourage everyone to be creative and think about contributing one item that might make community life more comfortable for everyone during the three and a half years, especially, for the children, like innocent games like chess, checkers, scramble word board games, a soccerball, a softball and a bat, handmitt, etc. Even bringing a box of hot cocoa, Ovaltine, a bottle of champagne and sparkling apple cider, for the days of celebration would be helpful. (Personally, there is only so much plain water that I can drink, so I am thinking of bringing some Kool-Aid mix and some lemonade mix for all the children AND me(!)). *Lord, have Mercy...*

In conclusion, I want to end here with a recent message given to John Leary from Our Lord, Jesus Christ, that should make everyone smile. ***God bless!***

**Saturday, May 15, 2021**  
**(St. Isidore the farmer)**

**Jesus said:** “My people, you need to be so thankful for your farmers who take so many

risks every year to provide the crops to eat at your table. After knowing a few farmers, they are really intelligent people to be able to run a farm and all that is needed. They have to invest in a lot of land and machinery to plant and harvest their crops. They take risks with floods, droughts, and finding markets to sell their crops. You have planted some vegetables and you know the problems with bugs and animals that want to eat your crops. You also had to keep the weeds out. The farmer is close to the land and he is understanding nature and how to grow crops. Even though it is hard to make a living on farming, farming is a very necessary means to find your daily food. You need to pray for the success of your farmers in bringing their crops to market, so you can have fresh vegetables and fruit to eat. **Your refuge people will appreciate My angels even more when they will bring you fresh vegetables and fruit as well.** Your time to come to My refuges draws near. Trust in Me to protect and feed My faithful at all of My refuges.”

### **REFERENCE:**

#### **\* NOTE (By a soul):**

According to a more recent message from Our Lord, Jesus Christ, all interim refuges are now permanent refuges, as Jesus will be increasing the land for smaller refuges so they can accommodate more of God's people. So, for most situations, people will not need to move to larger refuges during the Great Tribulation.

**PROPHET JOHN LEARY**  
<http://johnleary.com>

**Friday, September 14, 2007:**  
**(Exaltation of the Cross)**

**Jesus said:** “My people, when it comes time to go to My refuges, you will have a small independent community where everyone will have their own skill used in jobs to provide for the community. No matter what age you are, you all will be expected to make some kind of contribution in your work effort. Many places will not have electricity unless you have solar cells. This means that all of your tools and work implements will be hand tools and drawn by animals as in days past. You can survive without many of your comforts, but I will provide angel protection, water, and I will multiply your food. You will have shelters multiplied and healing of all of your ills with healing springs and looking on My luminous crosses. Just as Moses healed the snake bites by raising up a bronze serpent, so I will raise up My luminous cross for your healing in this modern day Exodus to My refuges. Give praise and thanks to Me for My protection during the tribulation as well as for all of My miraculous gifts for your needs. Even as the Early Christians had to work for their supper, My faithful will also have to work as well for your survival. Have patience, for this evil time will be less than 3½ years in your time now.”

**Thursday, January 16, 2009:**

**Jesus said:** “My people, I am showing you some people making bread at a refuge. Those, who have specific trades, should bring their tools of their trade with them to the refuges along with some wheat, flour, and yeast. I will multiply the flour and oil as I did for Elijah so you can have bread. Animals will be provided for your meat. Everyone will have their own special job to do, so all at the refuges can survive.”

**Thursday, January 29, 2009:**

**Jesus said:** “My people, you are so used to eating at your kitchen table or your dining room table, but eating at the refuge may be on a more rustic furniture and at times even outside. There will be many people at your refuges and you all will be helping each other to survive. It will be more difficult to live in the winter because you may not have electricity. Fuel will be needed for keeping warm, cooking, and for light at night. Be prepared with a fireplace and wood, as well as saws and hatchets to cut the trees for wood. Many of these tools you will need to take to the refuges. Trust in Me that you will have what you need.”

**Saturday, January 31, 2009:**

**Jesus said:** “My people, when you are at a refuge, you will have to either know or learn how to fashion wood for your needs in the outdoors. You know that St. Joseph and Myself were taught carpentry, and when you pray to us, we will help you in any building skills that you need. You have seen in various movies of how people can hide in the

woods, and build log huts into the hills. When you have a fair number of people in your refuge, you all will have to use whatever skills that you have in order to survive. I will provide food and water, but you may be called on to cut animals up for meat, or build a shelter from the wood. You should bring a hatchet, saw, and a deer knife for these tasks. I have asked those leaving their houses for a refuge that they bring the tools of their trade along with them. I have also told you when you see a world famine, a division in My Church, mandatory chips in the body, or martial law, then you are to call on Me to have your angel lead you to a refuge so you will not be captured by the evil ones. Today, you have seen how cruel it was in the Holocaust of World War II. The German soldiers killed many Jews and those that they determined were against them or were not of German descent. The one world government people also want to exterminate their opposition-people that have college training and those who are religious or patriots. This is why they want to place those, who do not take chips in the body, in the death concentration camps. This is also why you will find safety in My refuges from these killers.”

### **Sunday, June 6, 2010:**

**Jesus said:** “My people, you are comfortable now because you can eat anything you like, and as much as you need. When it comes time to go to My refuges and My interim refuges, the food that is stored will be multiplied as well as the deer and My Eucharist. At times you may have to eat what is available, even if it may not be food that you like. There will be a little suffering in what you eat, and you may have a more limited choice of foods available. For those, who are storing food, you may have to check to see if any of your food has spoiled, and it may have to be replaced. Once the tribulation begins, I will see to it that none of your food will spoil. If you do not have electricity for refrigerators, you may have to make root cellars in the ground to help preserve your food. Do not worry if you will have enough food for everyone, because as in today’s Gospel I provided an abundance as there were twelve baskets of leftovers. Trust in Me during the tribulation since I will provide protection, water, food and shelter for everyone. I still encourage those who have trades to bring your tools and some supplies. Whatever you bring will also be multiplied. I take what little you have, and I will multiply it for everyone’s needs.”

### **Thursday, July 8, 2010:**

**Jesus said:** “My people, those, who are preparing My refuges and interim refuges, are checking their food storage for spoilage and to stock even more supplies for the people who will be coming to them. I will truly multiply the food and water that you need, but all of you must be ready to help each other in your faith communities. By using your skills and tools, everyone will have whatever is needed to survive. When you come to My refuges, you will be living in full trust of My help. Be confident that I will soon be

victorious over these evil ones as I will bring you into My Era of Peace after the tribulation is over.”

### **Sunday, April 3, 2011:**

**Jesus said:** “My people, I have been calling people to set up both interim and final refuges. I told you that those people who desire to have a refuge in their hearts, can build one. Each refuge should have the land consecrated to Me, and have an independent source of water, especially for final refuges. At each refuge there should be a storage pantry of food that could have the food multiplied for those who come. This means that each leader needs to plan for some food storage that will keep for about four years. At each refuge there should be a place to sleep for some people with bedding and sheets. This building with beds will also be multiplied as more people come, so everyone will have a place to sleep. Towels, makeshift showers, soap, and toothbrushes will also be needed. Some provision for a latrine should be prepared. Think of living independently from stores and you will see what you will need at your refuges. My angels will protect you, but My people will need to take care of your meals, bathing, and washing clothes. Be prepared to use your talents in helping each other by bringing the tools of your trade to the refuges. Trust in Me that this short suffering will be making you saints in order to get you through this coming tribulation.”

### **Thursday, February 23, 2012:**

**Jesus said:** “My people, your refuges are independent, so you will need to find ways and people with skills and tools to make what you need. You will need a source of wax for candles, lard and lye to make soap, wool from sheep to make clothes, and many such every day needs as sheets and bedding. Buildings will be multiplied to provide room for dormitories for sleeping. Sewing, cooking food, washing dishes and clothes, and cleaning floors will be shared and rotated jobs.”

### **Thursday, April 19, 2012:**

**Jesus said:** “My people, when people first come to My refuges, it is going to be a huge task to organize it with people doing various chores. You need to determine what skills people have, and hopefully they could bring their tools of their trade. Once you allocate the skills, then one or more people need to plan what is needed most. Setting up housing and bedding even in tents will be first. Then setting up places for food preparation would be next. You will need to farm crops or pray for food to be multiplied. Organize a means of water for drinking, bathing, and washing dishes and clothes. Plan for your hygiene needs and possibly a place for latrines. In colder climates you may need wood or other fuels for heat and cooking. All of your major needs will be provided, but all the people in the community will have to make their own work contribution.”

**Monday, July 15, 2013:**

**Jesus said:** “My people, I am showing you a ratchet being used to build a building on a refuge. Some people are still making preparations at their refuges. When you see the tools being used, this should remind you to bring the tools of your trade. You can make your own contribution of your skills in helping each other to survive at your refuges. My angels will help you in making more buildings as they will multiply what you have when more people arrive. Remember that you will have to put the new arrivals at ease because they will be frightened. Also, you will need someone in charge to direct where people should go, and what jobs they will need to do. I will multiply your food, water, and fuels, but your people will need to help each other with your personal needs. If you all remain faithful to My messages, and trust in Me with your prayers, everything will work out under My protection.”

**Thursday, August 7, 2014:**

**Jesus said:** “My people, once you come to My refuges for your protection, you all will be put to work as in the vision for cutting up wood for a fire. Bring the tools of your skills as a good saw, so you will be ready to cut some wood. During the winter, you may need some wood for heat in a wood burner, and this could be used for cooking as well. If you have some forests nearby, you could prepare for winter by cutting some trees down. You may want to bring along a splitter to break up the wood better. I will multiply your fuel, your water, and your food, at My refuges of protection.”

**Wednesday, July 29, 2015:**

**Jesus said:** “My people, you are seeing in the vision how one person’s trade was making glass objects. In your Chemistry field you used many expensive pieces of glassware that required a good glass maker to build them. There are people with many different skills that will be needed in your refuges. I even advised people to bring the tools of their trade with them, so they could share their skill with others. At your refuges there will be needs for builders, people who can cut deer meat, farmers, and other trades needed for cooking and for survival. It is unfortunate that many artisans have lost their jobs to cheap foreign labor. Now, you have fewer factories, and more people are on welfare and Social Security than ever before. It is just a matter of time until your over-spending government will run out of sponsors for your debt. This will bring chaos that will kill many people, when your checks stop coming, or when they are worthless. Be prepared to come to My refuges when the evil ones start killing the Christians in America. I will provide what you need, and My angels will protect you. Pray that My Warning comes soon, so some souls will wake up and desire to be saved.”

**Thursday, August 6, 2015:**  
**(The Transfiguration)**

**Jesus said:** “My people, for those faithful who will be moving to a final or interim refuge, you need to prepare your vehicles so they are available in good working order to take people to My refuges. You may have backpacks, tents, clothes, and trade tools that need to be placed in one space, so you can quickly load them into your vehicles. I am having you get prepared for leaving your home because events will happen fast after My Warning.”
