

Heavenly Messages given to Luz de María vs. Scientific Observations

Prior to the birth of our Lord and Savior Jesus Christ, the Gospel of St. Matthew tells us that three wise men from the East had the knowledge to interpret correctly the new star in the sky. This astrological observation was correlated with the prophecy in the book of the prophet Micah (Micah 5:2) to find the actual location of the new born King (Matthew 2:1–12).

Similarly, the Holy Spirit revealed to Mr. William Tapley that the Great Sign of Apocalypse 12:1 was fulfilled on September 23, 2017.

Almighty God has revealed to many seers and locutionists around the globe that the time is upon us, and yet, many wonder: how can this be? Just like Nicodemus asked the Son of God at night (John 3:9).

How can this be? No human could ever know all the secrets of God's universe, but He has allowed us to develop some understanding of what is happening and how it will likely unfold. Some key observations include:

1- Active sunspot cycle

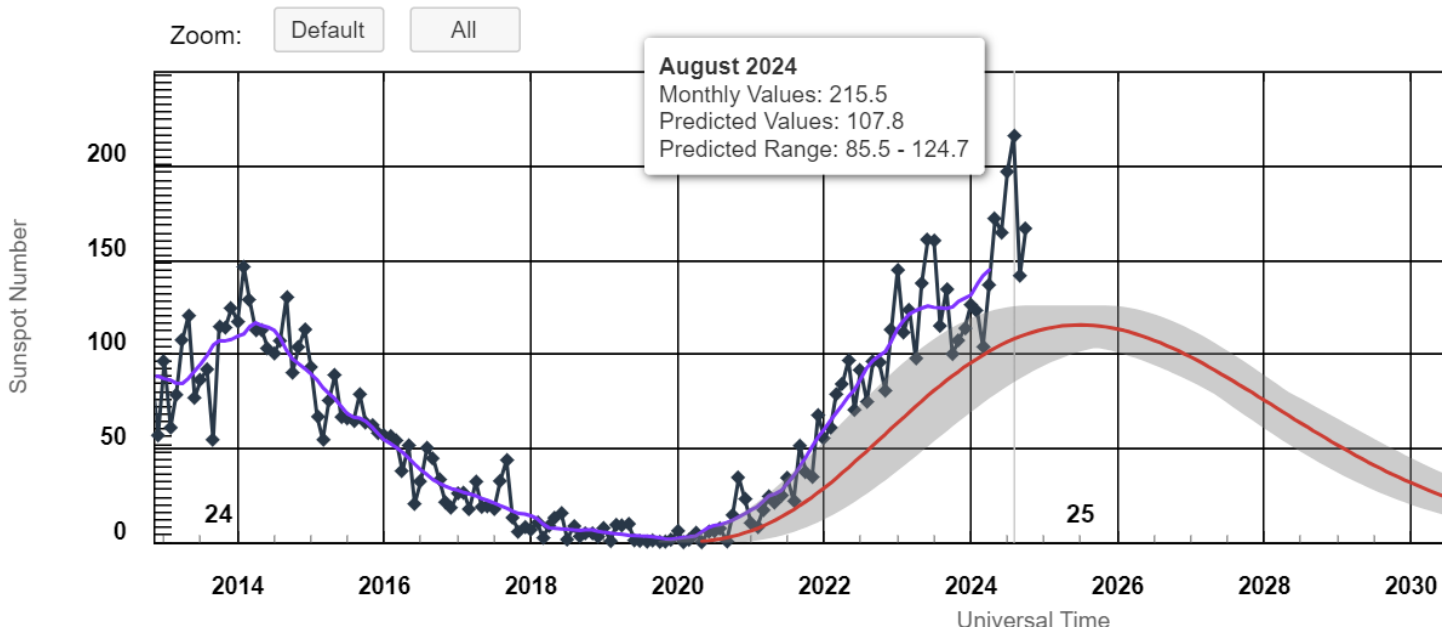

The messages given to Luz de Maria predict a huge solar flare that will disrupt the power grid and telecommunications. This would be a solar flare of intensity around X45 because the Carrington Event was estimated to be caused by a solar flare of intensity ~X45.

An X40 solar flare occurred on 2003/11/04 but it did not impact Earth. The majority of ejected particles were directed away from our planet, only giving Earth a "glancing blow.", per [https://agupubs.onlinelibrary.wiley.com/doi/10.1029/2004JA010960#:~:text=5.-,Conclusion,2%20\(X34%E2%80%93X48\)](https://agupubs.onlinelibrary.wiley.com/doi/10.1029/2004JA010960#:~:text=5.-,Conclusion,2%20(X34%E2%80%93X48).). Likely, and event of this magnitude has not occurred since 1859, prior to the widespread use of electricity.

It has been prophesied that an intense solar flare directed towards Earth will occur, named the Great Blackout, and based on the urgency of recent heavenly messages, it is believed that it could take place during the current solar cycle. Cycle 25 is expected to peak between November of 2024 and March of 2026. And the number of sun spots in cycle 25 is higher than anticipated (red line in the graph below) and cycle 25 is expected to peak early within this window.

The risk of a significant solar flare may be higher during an active solar cycle.

ISES Solar Cycle Sunspot Number Progression

[https://www.swpc.noaa.gov/products/solar-cycle-progression#:~:text=The%20Prediction%20Panel%20predicted%20Cycle,November%202024%20and%20March%202026.&text=SWPC%20Space%20Weather%20Operations%20\(SWO\)%2C%20Daily%20Observations.](https://www.swpc.noaa.gov/products/solar-cycle-progression#:~:text=The%20Prediction%20Panel%20predicted%20Cycle,November%202024%20and%20March%202026.&text=SWPC%20Space%20Weather%20Operations%20(SWO)%2C%20Daily%20Observations.)

2- Weakening of Earth's Magnetosphere

Even if the Big Blackout does not happen right away, Dr. Ben Davidson of Suspicious Observers has carefully documented that the weakening of Earth's Magnetosphere is making our planet more vulnerable to less intense solar events. This means that it may not take an X-45 solar flare to cause severe disruptions because the natural defenses of our planet are quickly weakening.

An example would be storm intensification caused by proton storms. The ionization in the atmosphere promotes nucleation of water droplets, and this produces stronger storms and other disturbances. And it also has the visible impact of low-latitude aurora borealis as far south as Arizona, Florida and Puerto Rico during recent solar flares. Dr Davidson showed concern when so many instances of aurora borealis were found near the equator.

The combination of high solar activity and weakening of Earth's magnetosphere will likely yield the perfect conditions for the fulfillment of the Great Blackout prophecy, as well as severe storms, high winds, drought, flooding and intense earthquakes as we approach a shift of the magnetic north pole. This will be further discussed in bullet point #3. For a sample of a recent report, see below.

For the record, I disagree with the timeline of catastrophism proposed by Dr. Ben Davidson and I do not believe that a solar micronova is going to bring about the fulfillment of 2 Peter 3:10 because this is not consistent with the whole body of Catholic Prophecy.

2 Peter 3:10 But the day of the Lord will come like a thief, and then the heavens will pass away with a loud noise, and the elements will be dissolved with fire, and the earth and the works that are upon it will be burned up.

Space Weather News - November 6, 2024

Dr. Ben Davidson reported that there is quite a bit of activity in our nearest star. From his morning report:

0:18 we are starting with the last 24 hours on our star where we see **continued M-Class solar flares**, **massive Plasma Filaments remain** as well, and we've got both **North and South Coronal holes**. There's a lot to keep an eye on in terms of the solar wind this coming weekend.

0:33 And the filament eruptions. But I'm firmly focused most significantly on the leading **incoming sunspots** (*this are the ones in the direction facing planet Earth that can impact us, LC*). We have some bigger spots departing to the right but they are less complex; the **incoming ones** on the left nearer to the equator **are very complex**. And, most of all this morning, it would be the leading group. The one out ahead this one is not only more closely packed-in but the Sunspot Umbra are a bit bigger and if we look at the Sunspot magnetism we can see **several areas with interaction potential where positive and negative polarity are ready to collide** (see Figure 1) that is how you get **solar flares**.

1:06 Now in addition to all the sunspots and filaments and Coronal Holes, the 171 angstrom view indicates more is coming right behind the equatorial sunspots that is **a very bright signature** over there at the limb coming (see Figure 2).

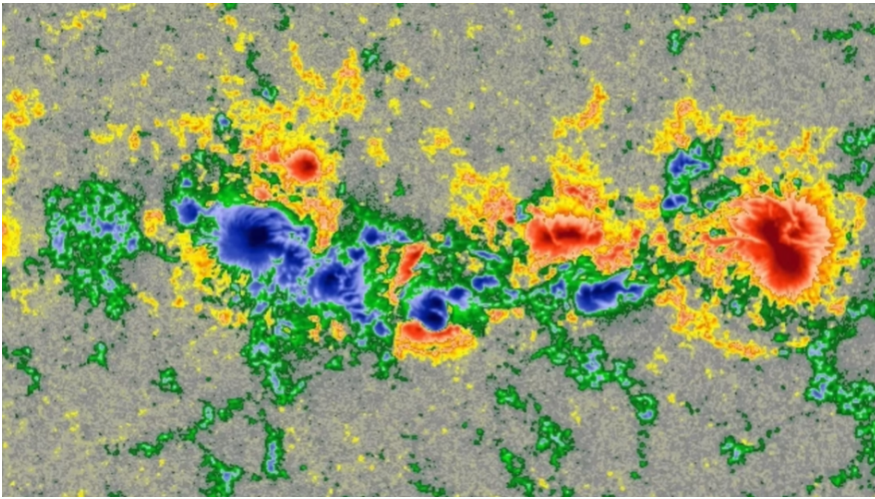

Fig. 1

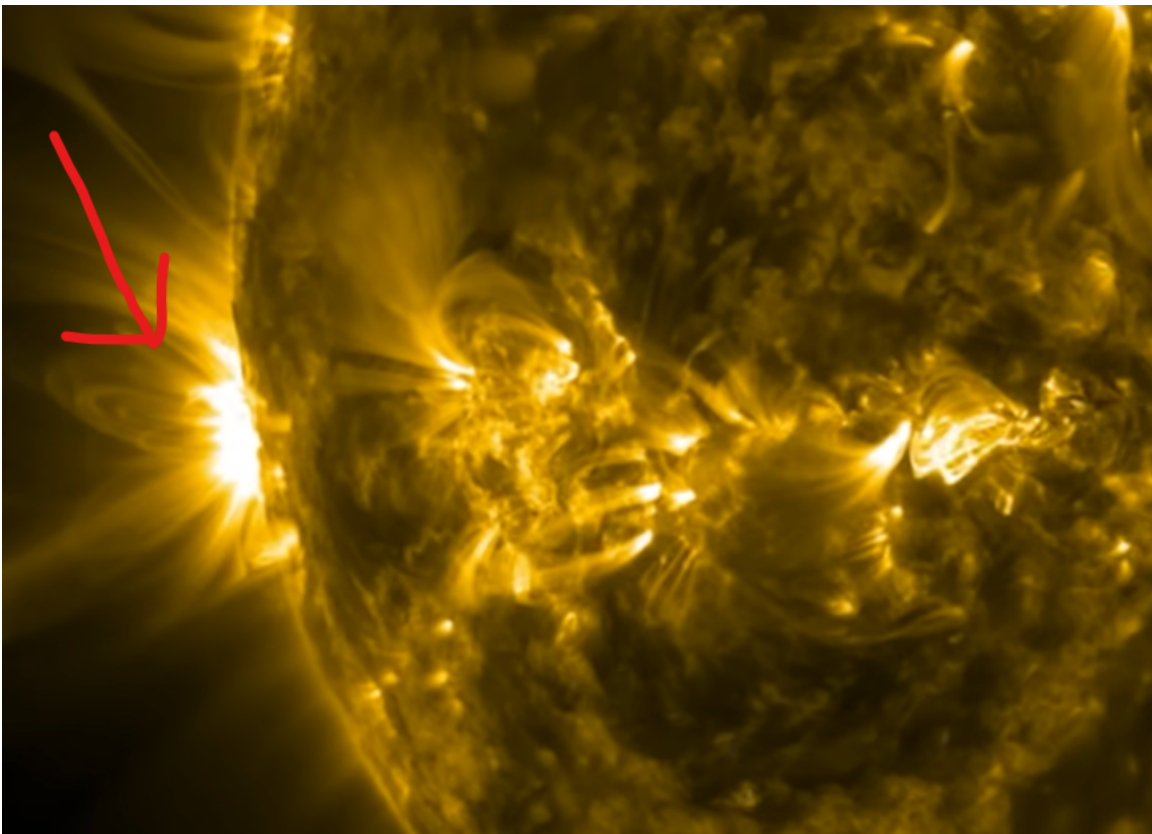

Fig. 2

3- Signs of potentially destructive seismic activity

Dr. Davidson has said many times that there is a correlation between solar activity and strong earthquakes. There is a strong magnetic core below the surface of our planet that responds to the magnetic field in our solar system, in our galaxy and between galaxies. There are complex magnetic interactions that scientists are only beginning to understand. The changes in solar activity during a given solar cycle are also determined by what is happening outside of our solar system.

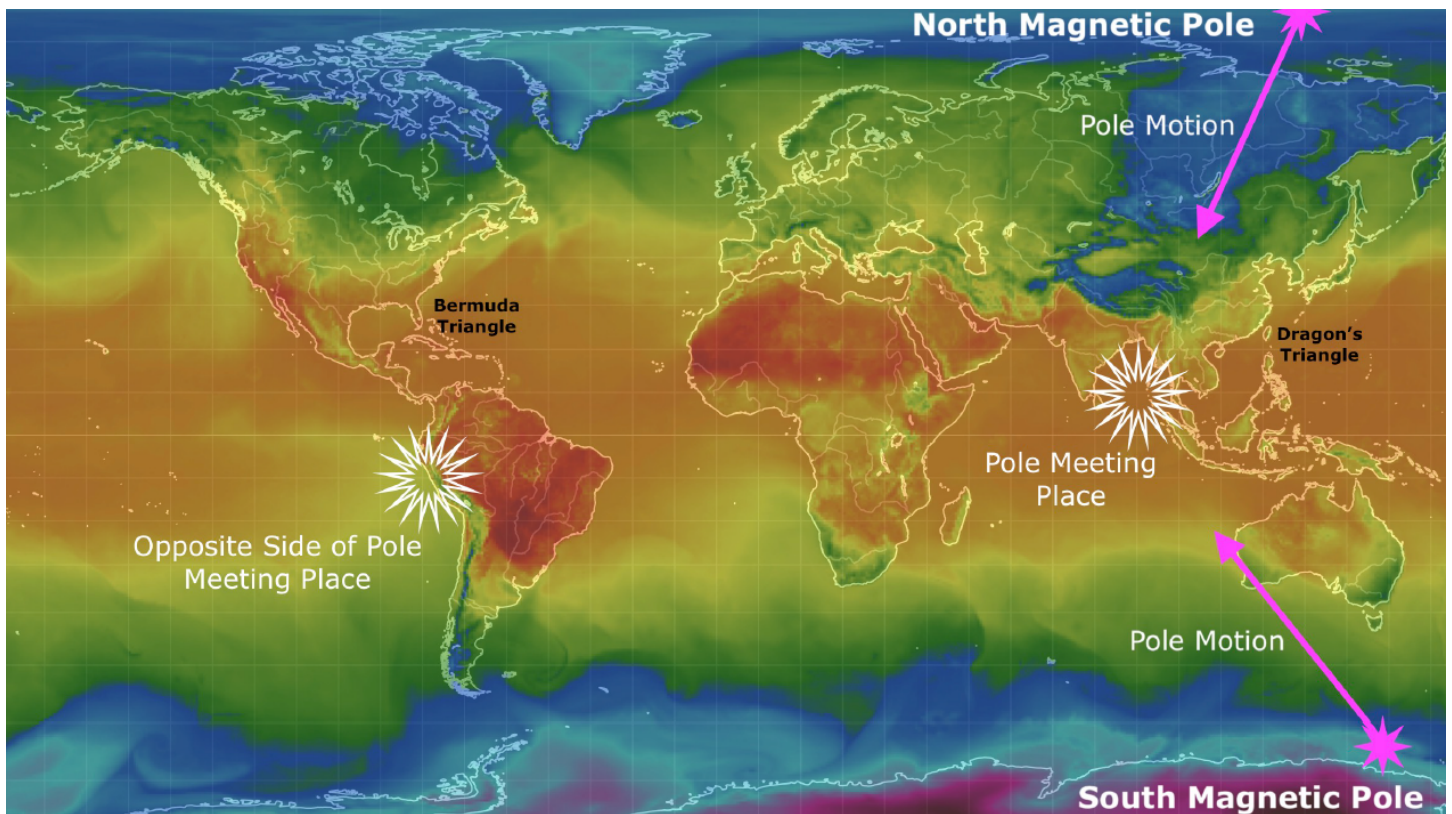

And just like the sun has cycles, the position of the magnetic north pole is on a long cycle of about 12,000 years. The magnetic pole has changed over the history of our planet and the process of changing positions is known as a geomagnetic excursion.

Excursion Name	Estimate Time	Biosphere Impact /10
Gothenburg	~12,000 years ago	8/10 (Severe)
Lake Mungo	24 - 28,000 years ago	4/10
Mono Lake	33 - 37,000 years ago	5/10
Laschamp	41 - 46,000 years ago	8/10 (Severe)
Vostok/Greenland	~60,000 years ago	5/10
Toba	~72,000 years ago	9/10 (Extreme)
???	~84,000 years ago	<4/10
???	~96,000 years ago	<4/10
Blake	105-115,000 years ago	8/10 (Severe)

From the book "The Next En of the World - The Rebirth of Catastrophism" by Dr. Ben Davidson, pg. 33.

I have long believed that the fulfillment of Matthew 24 is linked to a shift of the poles and there is ample scientific evidence that the next upcoming geomagnetic excursion **already started** and is intimately linked to the weakening of the planet's magnetosphere.

Moreover, Luz de Maria has received messages that warn people now living near the equator of bitterly cold weather. This would be consistent with the weather conditions in South America after the shift of the poles. A sample of the type of data scientists track to attempt to predict significant earthquake activity follows below.

From the book "The Next En of the World - The Rebirth of Catastrophism" by Dr. Ben Davidson, pg. 37.

Also, from Space Weather News - November 6, 2024

1:20 A quick seismic note here the quakes on the west coast of South America are all **Blot Echoes** (*deep earthquake indicative of shallower seismic events to come*). This is one of the several signs we look for when seismic activity is about to amplify in an area. Hopefully the surface realizations of that deeper pressure are not too big.

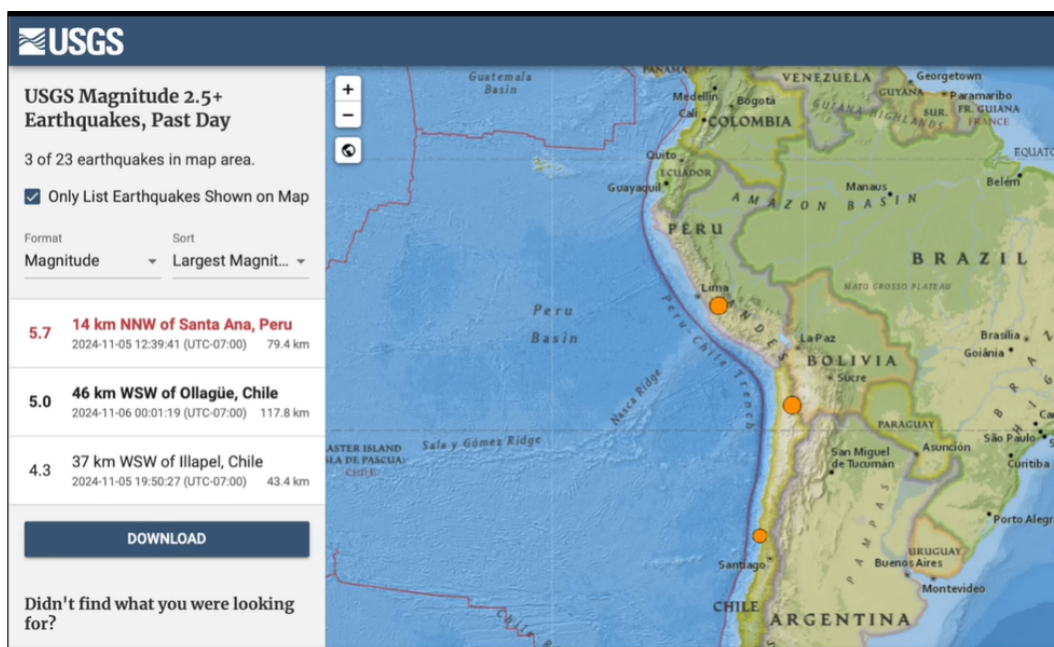

Fig. 3

4- Weather Abnormalities and Natural Disasters

A final note on the weather abnormalities that we are experiencing. St. Michael the Archangel recently told Luz de Maria the following:

"...you are the ones who suffer the unexpected and extreme arrival of the force of nature. **In some cases, it acts with greater intensity, dominated by man**, and in other cases, **it acts by itself in a natural way**.

This is consistent with my prior understanding that the minions of the evil one can and will do their best to increase our suffering in every way they can, but they do not have full control of the situation because GOD IS IN CONTROL. They can do their best to torment us, but they CANNOT STOP the geomagnetic excursion. And they are going to find out the hard way that they cannot hide from God's Holy Wrath.

Revelation 6:15 Then the kings of the earth and the great men and the generals and the rich and the strong, and every one, slave and free, hid in the caves and among the rocks of the mountains, 16 calling to the mountains and rocks, "Fall on us and hide us from the face of him who is seated on the throne, and from the wrath of the Lamb; 17 for the great day of their wrath has come, and who can stand before it?"

So, weather modification technology is real, and it has been weaponized against us, but some of the disasters that we are experiencing are natural disasters. So, even if the minions of the evil one would like to claim control over the planet, they only control certain aspects of it and God is going to stop them when it gets to a certain point. I think that the Great Blackout is probably an Act of Mercy from Almighty God to protect us from some of their technology. This is going to be the thought in my mind and I am suffering live without electricity and telecommunications.

Excerpts from the Message to Luz de Maria, 11/2/2024

Beloved children of Our King and Lord Jesus Christ, when you see what part of humanity is experiencing, you do not look at yourselves in the mirror. What you look at with indifference is happening all over the Earth in various places; **the elements scourge the earth with enormous force, as enormous as the offenses done to Our King and Lord Jesus Christ**.

WHO SUFFERS FROM THE UNEXPECTED CHANGES IN NATURE?

You suffer... How much death, how much pain!

Children of Our King and Lord Jesus Christ, you are the ones who suffer the unexpected and extreme arrival of the force of nature. **In some cases, it acts with greater intensity, dominated by man**, and in other cases, it acts by itself in a natural way.

"Pray, children of Our King and Lord Jesus Christ, pray. Mankind suffers. **Europe continues what the water in Valencia already began**; that same lament follows, spreading throughout Europe."

Pray, children of Our King and Lord Jesus Christ, pray. The **United States is suffering again from another hurricane. The disease is rushing with great contagion**. The wind appears with force as a harbinger of the storm in which this power will live.

Pray, children of Our King and Lord Jesus Christ. Pray, children, pray, pray, **the plague is spreading rapidly through the land without you noticing it**.

Excerpts from the Message to Luz de Maria, 11/5/2024

Like a monster contrary to good, the one called by man **Hurricane Rafael**, spectrum of evil, came to destroy not to heal. This hurricane arrives to **cause destruction and disease all over the Earth**.

Beloved children, the earth will be saturated with **electromagnetic waves that will lead the elements to extremely unusual behavior**, unexpectedly.

Pray, My children, pray, evil warns mankind that is present on Earth.

Pray My children, pray, the extreme climate in South America manifests strongly, look up.

Pray My children, pray for Brazil, the fire arrives; pray for Argentina, suffers due to nature.

Pray, My little children, pray, little children, pray for Puerto Rico, children, pray for Puerto Rico, prepare yourselves!

Pray little children, pray for Cuba, it suffers due to a hurricane; Pray for your brothers in Cuba, do not forget.

Pray little children, pray, the force of nature reaches Europe once again, pray for Spain.

Pray little children, pray hard for the United States, pray vehemently.

Dearly beloved children, you are going to be more oppressed exploiting the new and unknown diseases that appear in the world. **You will be oppressed once again because of the illness**, My children, the illness leads you to obey.

I call you not to travel at this time, obey my children, obey; unless you are returning home.

My little children:

OBEY THIS MOTHER, OBEY, DO NOT DESPISE MY CALLS, I DO NOT CAUSE FEAR, BUT I ALERT YOU SO THAT YOU MAY CHANGE SPIRITUALLY AND TAKE THE NECESSARY MEASURES IN ANTICIPATION OF EVERYTHING TO COME.

Appendix

What happened in Valencia, Spain?

<https://www.libertaddigital.com/valencia/2024-11-03/emotivas-imagenes-de-la-reina-letizia-llorando-ante-los-vecinos-de-paiporta-7181752/>

Queen Letizia of Spain cried during her visit to Paiporta, Valencia. She is upset because she never faced a situation like it. Locals showed their despair and frustration because over 200 were confirmed dead and nobody knows how many people have been reported missing. They got no prompt help from the government and the situation deteriorated quickly. To the best of my knowledge, there is no precedent in Spain for a disaster like this one. By the time politicians showed up to get their pictures taken, people were in dire circumstances, and they lost it.

I will be praying very hard for Spain, the USA, Cuba and all the countries mentioned in the **messages from Luz**

de Maria form Nov. 2 and Nov. 5, since they speak about these events directly and future ones... this is just the beginning.

Storm tracking for Rafael already shows some unusual behavior and we not know what is going to happen next.

The first link below shows before and after pictures. It was a terrible disaster. The climate is Spain is dry and they got in a few hours the amount of rain they would get in a year or more. It was a terrible disaster, like the disasters that took place in North Carolina with hurricane Helene. Nobody was prepared and they had no idea something like this could occur. But there is so much going on everywhere. It is hard to pay attention to people in other countries. The only reason I did some research is because the 90-second video of Geo Engineering Watch said something about Valencia, Spain and looked it up right away because one of my friends from graduate school lives in the area.

I am convinced that, in addition to the weather modification weapons used against us, there is intensification of disturbances caused by solar weather, as explained by Dr. Ben Davidson. He is not too much in the boat of Dane Wigginton of Geoengineering Watch. But I think that both of them have uncovered aspects of the truth.

Please share all this information with anyone that might be interested. We need to improve our understanding of how people react in disasters to be able to accomplish our mission when the next big one hits home.

Blessings in JMJ,

Laura Castro, Ph. D.
